

Gladness Comes

With a better understanding of the W transient nature of the many physical ills, which vanish before proper efforts—gentle efforts—pleasant efforts rightly directed. There is comfort in the knowledge, that so many forms of sickness are not due to any actual dis-ease, but simply to a constipated condi-tion of the system. which the pleasant family laxative, Syrup of Figs. promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness without debilitating the organs on which it acts. It is therefore ill important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, laxatives or other remedies are then not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely ased and gives most general satisfaction.

FIRE AT MR. FRAYSER'S.

The barn and stable on the farm of Mr. W. B. Frayser, one of the Board of Supervisors of Henrico, was destroyed by fire at an early hour yesterday morning. The farm is situated on the River road, several miles below the city, and the burned building was a targe frame structure, in which Mr. Frayser kept his horses, harness, feed, and forage. The fames burned rapidly, and a horse and a mule, which were in the stable, were burned to death. Seventy-five bales of hay, \$100 worth of harness, and saddles valued at \$50 were destroyed by the devouring element.

The cause of the fire is unknown. Mr. Frayser said yesterday that \$2 was inclined to the belief that a colored farm hand, who was in the stable about 1 o'clock, had either dropped a lighted cigarette or a match carelessly, thus igniting the hay on the floor.

The negro was the first person to discover the fire. He set up a series of vells that awoke the whole neighborhood, but sturdily denied, when questioned. The beniging and contents were insured.
